Engineering the Future

DarTech is a custom software development studio building web and mobile applications for businesses that need reliable, well-engineered technology. We take ideas from concept to fully working products — combining thoughtful engineering with clean, purposeful design.

The name DarTech blends "Dar" — a foundation, a place things are built — with "Tech," the craft itself. Together they represent a studio that constructs software the way an architect constructs a building: deliberately, solidly, and built to last.

MISSION

To engineer software that turns ambitious ideas into dependable, scalable products — for startups and businesses building what's next.

The Full Logo

The primary logo is the main identifier for DarTech and should be used whenever possible. It combines the D-mark icon with the DARTECH wordmark and tagline.

Give It Room to Breathe

Always maintain a minimum clear space around the logo equal to the height of the "D" icon. Never let text, imagery, or other elements enter this zone.

Below the minimum sizes, legibility is lost — especially the wordmark's fine strokes. Do not scale the logo smaller than these thresholds.

ICON — 24PX MIN (DIGITAL)

FULL LOGO — 140PX MIN WIDTH (DIGITAL)

Color Backgrounds

Use the appropriate logo variation depending on the background it sits on, always preserving contrast and legibility.

How the Mark Was Built

The DarTech mark fuses three ideas into a single letterform: the letter D for Dar, a circuit-node motif for technology, and a forward arrow for progress — resulting in a mark that reads as both a letter and a direction.

Brand Colors

A deliberately restrained palette — confident blue paired with black and white — keeps the brand feeling precise, technical, and modern.

Typeface System

Poppins is the brand's typeface — a geometric sans-serif that mirrors the precise, technical character of the DarTech mark across headings, body copy, and UI.

HEADINGS — POPPINS BOLD

Aa Bb Cc 123

SUBHEADINGS — POPPINS SEMIBOLD

Building Software That Lasts

BODY COPY — POPPINS LIGHT / REGULAR

DarTech is a custom software studio building web and mobile products engineered for scale, speed, and reliability. ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz 0123456789.

Protecting the Mark

Consistency builds recognition. Never alter, distort, or recolor the logo outside of the approved variations shown in this guide.

✗ Don't stretch or distort

✗ Don't recolor the mark

✗ Don't place on low-contrast backgrounds

✗ Don't rotate the mark

Business Stationery

The identity translates cleanly to physical touchpoints — starting with business cards using the black and white logo lockups.
